

```
package com.sxt.singleton;

public class Client {
    public static void main(String[] args) {
        SingletonDemo01 s1=SingletonDemo01.getInstance();
        SingletonDemo01 s2=SingletonDemo01.getInstance();
        System.err.println(s1);
//com.sxt.singleton.SingletonDemo01@7852e922
        System.err.println(s2);
//com.sxt.singleton.SingletonDemo01@7852e922

        System.err.println(SingletonDemo05.INSTANCE);//INSTANCE

    }
}
```
