

```
package com.sxt.proxy.staticProxy;

public class Client {
    public static void main(String[] args) {
        RealStar star=new RealStar();
        ProxyStar proxy=new ProxyStar(star);
        proxy.confer();
        proxy.singContract();
        proxy.bookTicket();
        proxy.sing();
        proxy.collectMoney();
    }
}
```
