

```
package com.memento.theory;

public class Memento {
    private String state;

    //构造器
    public Memento(String state) {
        super();
        this.state = state;
    }

    public String getState() {
        return state;
    }

}
```
