

```
package com.adapter.interfaceadapter;
```

```
//在AbsAdapter 我们将 Interface4 的方法进行默认实现
```

```
public abstract class AbsAdapter implements Interface4 {
```

```
    //默认实现
```

```
    public void m1() {
```

```
    }
```

```
    public void m2() {
```

```
    }
```

```
    public void m3() {
```

```
    }
```

```
    public void m4() {
```

```
    }
```

```
}
```
