```
package com.responsibilitychain;
public abstract class Approver {

Approver approver; //下一个处理者
String name; // 名字

public Approver(String name) {
    // TODO Auto-generated constructor stub
    this.name = name;
}

//下一个处理者
public void setApprover(Approver approver) {
    this.approver = approver;
}

//处理审批请求的方法,得到一个请求,处理是子类完成,因此该方法做成抽象
public abstract void processRequest(PurchaseRequest purchaseRequest);
}
```
