```java
package com.sxt.factory.abstractFactory;

public interface Tyre {
    void resolve();
}

class LuxuryTyre implements Tyre{

        @Override
        public void resolve() {
        System.err.println("旋转不磨损");
        }

}

class LowTyre implements Tyre{

        @Override
        public void resolve() {
        System.err.println("旋转磨损快");
        }

}
```
