```java
package com.sxt.proxy.dynamicProxy;

import java.lang.reflect.Proxy;

import com.sxt.proxy.staticProxy.Star;

public class Client {
    public static void main(String[] args) {
        Star realStar=new RealStar();
        StarHandler handler=new StarHandler(realStar);

        Star proxy=(Star)
Proxy.newProxyInstance(ClassLoader.getSystemClassLoader(),new Class[]
{Star.class} , handler);
        proxy.bookTicket();   //不会执行了
        proxy.sing();
    }
}
```
